Solve this
sudoku puzzle! The
numbers 1, 2, 3, and 4 must
appear once in each of the four
horizontal rows, once in each of the vertical
columns and once in each of the four boxes.

Answer:

4	3	2	1
2	1	4	3
1	2	3	4
3	4	1	2

DOTS 'N BOXES!

Take turns with a friend drawing a straight line to connect two dots (no diagonals). If your line completes a square, initial the square and take another turn. The player who claims the most squares wins.
